

Egg in Onyx Stone

# CPD Seminar

Creativity, CNC, Craftsmanship;  
Designing & Fabricating with  
Engineered and Natural Stone

**Rock Revelations has over 15 years expertise as a leading UK Fabricator of engineered and natural stone for commercial and residential sectors.**

Gain an insight into the exciting possibilities for creative design of engineered and natural stone from a fabricator's perspective.

This 45-minute seminar features real life examples of the design process and fabrication of bespoke pieces for high-end residential through to more complex designs for commercial applications.

Journeying beyond the traditional, the presentation tells the story of 5 stunning materials and the level of detail, skill and talent involved to deliver exceptional results.

- Onyx; making an exceptional entrance
- Designing with Quartz; covering all angles
- Ultra-Compacts for Ultra Surfacing
- Granite; bespoke creations; bathroom, boardroom, breakfast
- Marble in the detail; the making of Selfridges Water Bar

INDUSTRY  
PARTNER

Very informative, excellent knowledge of products and construction skills.  
Willing to go the extra mile to help.

Really interesting with great attention to detail on fabrication and overall knowledge.

Would definitely feel reassured with quality and execution of a high end project.

Very helpful, great. Sure we can use you in the future.
